Cumulative Index 1987

Clinics in Sports Medicine, Volume 6

January	HEAD AND NECK INJURIES, pp. 1–222
April	OVERUSE INJURIES, pp. 225–470
July	ARTHROSCOPY/AQUATIC SPORTS MEDICINE, pp. 471–698
October	RADIOLOGIC DIAGNOSIS OF PAIN IN THE ATHLETE, pp. 699–948

Note: Page numbers for entire articles are in **boldface** type.

Abdominal pain, causes of, 885
  in athletes, **885–904**
  in female athletes, 902–903
  radiographic evaluation in, 885–886
Accessory navicular syndrome, 400–401
Achilles tendon, injuries of, in overuse, 228–229
Acromioclavicular joint, arthroscopy of, 630
  injuries of, 787–788
Aerobic exercise, and overuse injuries, 225
Air embolism, diving-associated, 652–654
Airway, opening of, emergency maneuvers for, 9, 11
Anatomy, arthroscopic, intra-articular, 508–510
Anesthesia, for arthroscopy, 495–496
  local, **471–490**
Aneurysms, headaches in, 745–746
  traumatic, 732
Angiography, cerebral, in headache, 740, 744
  in diagnosis of pain, 699, 706
Ankle arthroscopy, **503–512**, 630
    complications of, 511
    development of, 503–504
    for chronic lateral instability, 510–511
    indications for, 504
    pathology and, 510
    portal anatomy and, 507, 508
    technique for, 504–507
  bursae of, 357–359
Ankle injuries, acute, 905–906
  chronic, 906–908
  radiographic evaluation of, in athlete, **905–919**
Ankle sprains, residual morbidity after, 907
Anterior cruciate ligament. *See* Cruciate ligament, anterior.
Anti-inflammatory agents, in plantar fasciitis, 292
  in tennis elbow, 264
Aorta, dissection of, radiographic evaluation of, 863, 864, 865
  rupture of, in athlete, 863
Aortic stenosis, valvular, 866
Apophysitises, traction, **380–404**
    about hip, 398
    etiologic factors in, 389–391
Arteriovenous malformations, headaches in, 745–746
Arthritis, mimicking athletic injury, 928, 929
  post-traumatic, 728
Arthrofibrosis, motion-limiting, of knee, arthroscopy in, **537–549**
Arthrography, in diagnosis of pain, 704–705
Arthroscopic patient, perioperative management of, **491–502**
Arthroscopy, acute situation for, 493–494
  anesthesia for, 495–496
  case reports of, 475–480
  complications of, 495
    treatment of, 500
  cutting instruments in, 623–627
  equipment for, 496
  evaluation for, 491–493
  for anterior cruciate ligament reconstruction. See *Cruciate ligament, anterior, arthroscopic reconstruction of.*
  for meniscal repair. See *Meniscus, arthroscopic repair of.*

Arthroscopy *(Continued)*
history taking for, 493
in motion-limiting arthrofibrosis of knee, **537–549**
complications of, 546–547, 548
indications for, 539–540, 547–548
patient population for, 538–539
postoperative care in, 544
results of, 544–546
technique of, 540–543
in stabilization of anterior shoulder, **581–586**
in subacromial impingement, **573–579**
indications for, 493–494
infiltration of local anesthetic for, 472–474
instrumentation for, 619–623
current development of, **619–636**
magnetic resonance imaging for, 492
management following, 497
management prior to, 491
nonacute situation for, 494
of acromioclavicular joint, 630
of ankle. See *Ankle arthroscopy.*
of elbow. See *Elbow arthroscopy.*
of knee, instructions to patient following, 501
of shoulder. See *Shoulder arthroscopy.*
of wrist. See *Wrist arthroscopy.*
operative, electrosurgery in. See *Electrosurgery, in operative arthroscopy.*
physical therapy following, 497–499
plain radiographs for, 492
positioning and leg holders for, 474
preparation for, draping and surgery for, 474
primary considerations in, 472
recovery following, 499–500
special x-rays for, 492
surgical preparations for, 495
termination of, 474–475
using local anesthesia, **471–490**
advantages of, 488–489
negative aspects of, 489
visualization via, 619–623
Atelectasis, 857–858
Athlete(s), head and neck injuries in, field evaluation and management of, 1–15
head injuries in, management guidelines for, **17–29**
medical care of, in prevention of injury, 194
radiologic diagnosis of pain in, **699–711**
Athletics, during school hours, responsibility for, 198–199
extracurricular, assumption of risk in, 199–200
Avulsion fracture, of cervical spine, 761
Axial loading, in football, cervical spine quadripiegia and, 180–181
Axonotmesis, brachial plexus, Grade II, 140
Back pain, low. See *Low back pain.*
Back strains, in competitive swimmers, 644
Back, traumatic injuries to, radiographic diagnosis of, 771–772, 773, 774
Bankart lesion, 793
arthroscopic instrumentation in, 634
Barotrauma, 649–654
of ascent, 651–654
of descent, 650–651
sinus, 651
"Baseball finger," 819–821
Bending exercises, in isometric strengthening, 143
Bennett fracture, 826, 827
Biomechanics, of muscle overuse injuries, **241–257**
Bladder injury, in athletes, 893
Blatz arm band, in swimmer's shoulder, 641, 642
Bleeding. See *Hemorrhage(s).*
Blood vessels, abnormalities of, radiographic evaluation of, 863, 864, 865
disorders of, in athletes, 903
Bone(s), long, injuries to, radiographs in, 700
overuse injuries to, 230
"Bone fatigue," 719
Bone grafting, inlay, medullary curettage and, in Jones' fracture, 303
Bone modeling, stress injury in, 718–719
Bone scan(s), nuclear medicine, in evaluating pain, **713–737**
triple phase, 716
Bone scanning, advantages of, 714
applied to athletic injuries, 715–734
technical aspects of, 714–715, 716
utilization of, 713–714
Bone tumor(s), benign, 922
leading to pathologic fracture, 923
mimicking muscle strain, 923–924, 925
presenting as joint injury, 924, 926
malignant, simulating athletic injury, 930–931, 932
"Boxer fractures," 825, 826
Boxers, neurologic dysfunction in, continuum of, 43
neuropsychologic testing in, 45–50
safeguards for, 50
Boxing, fatalities in (1918–1985), 32, 38
intracranial injuries resulting from, **31–40**
number of bouts of, cerebral effects of, 47, 48, 49
Boxing injury(ies), acute, 32–34
chronic, 34–38
neurologic, radiologic, and neuropsychologic evaluation, **41–51**
neuropathologic correlations in, 44–45
Boyle's law, 649, 688
Brace(s), Boston, 333, 340, 341
for tennis elbow, 267, 268
in stress fracture, 421

Marshall-type, in Osgood-Schlatter disease, 394, 395
Brachial plexus, axonotmesis in, Grade II, 140
neurapraxia in, Grade I, 140
Brachial plexus injury(ies), 140
rehabilitation of, **135–158**
Brain, swelling of, in head injury, 20–22
Brain injury(ies), accidental, in children, 187
chronic, clinical spectrum of, 42–44
diffuse, 17–22
Brain syndromes, focal, 22–28
Breathing, rescue, initiation of, American Heart Association and, 9
Bursa(e), anatomy of, 345–346
around hip, 352–354
at elbow, 350–352
chronically inflamed, **345–370**
management of, 348–350
pathophysiology of, 346–347
in shoulder, 347–350
inflammation of, from overuse, 229
of ankle, 357–359
of feet, 357–359
of knee, 354–357
Bursitis. See also *Bursa(e), chronically inflamed.*
olecranon, 351, 352
prepatellar, 355, 356
retrocalcaneal, 730–732
trochanteric, 353, 354
Burst fracture, of cervical spine, 757

Calcium ion depletion, muscle fatigue in, 255
Capsular syndrome, arthroscopy in, 569
Carbon dioxide toxicity, SCUBA diving and, 648–649
Carcinoma(s), sun exposure and, 672–673, 692
Cardiac contusion, 867
Cardiomyopathy, hypertrophic, 865–866
Carpal tunnel syndrome, 231, 232
Cartilage, damage to, 229
Cataracts, ultraviolet radiation exposure and, 676, 692
Cervical spine, applied anatomy of, 87–88
athletic injuries to, 5
activity restrictions following, 59–60
emergency management of, 6–14
in football, 68–70
management guidelines for, **53–60**
mechanisms of, 69–70
burst fracture in, in ice hockey, case report of, 104
congenital anomalies of, precipitating spinal stenosis, 119–123, 126
fatality data, football, 187–192
fracture-dislocation in, in ice hockey, case report of, 103
fractures and dislocations of, 55–57
instability of, following athletic injury, 58–59
ligamentous instability of, following injury, 117–119
lower, dislocations of, 757–759
fractures of, 756–757
ligamentous injuries of, 755–756
mechanism of injury of, 761–763
normal anatomy of, 752–755
stenosis of, hyperextension as risk in, 119, 128–129, 130
with cord neurapraxia and transient quadriplegia, **115–133**
traumatic lesions of, classification of, 181
upper, fractures of, 760–761
ligamentous injuries of, 759–760
Cervical spine injury(ies), 138–139, 755–761
athletic, legal aspects of, **197–210**
roentgen examination in, **751–766**
fatal, football tackle-associated, **185–196**
suggestions for reducing, 194–195
field evaluation and management of, 4–5
from trampolining, 74–75
rehabilitation of, **135–158**
Cervical "sprain syndrome", acute, 54–55, 138–139
Cervical vertebra(e). See *Vertebra(e), C2, C3, C4.*
Chest pain, in athlete, radiologic evaluation of, **845–871**
Cholecystitis, 900
Coaches, safety promotion by, 208–209
Cold therapy, in overuse syndromes, 236–237, 428–430
Comparative negligence, "modified", 201
"pure", 201
Compartment syndrome(s), anterolateral, of leg, 233, 234
exertional. See *Exertional compartment syndrome(s).*
posterior, ankle pain in, 909
shin splints in, 276–277
Compression fractures, of spine, 729
of vertebral body, 139
Computed tomography, in ankle problems, 907, 908
in cervical spine injuries, 751
in diagnosis of pain, 700, 706–707, 708, 709
in headache, 740, 743, 745, 747, 748
in renal injuries, 889–890
in splenic injuries, 898, 899
in thoracolumbar pain, 769
of brain of boxers, 45, 48
Concussion, cerebral, classic, 19–22
grades of, 2–4
mild, syndromes of, 18–19

Cone shell toxins, 691
Contact lens, diving with, 686–688
Contraction, isometric, and acute muscle soreness, 245–246
Contributory negligence, definition of, 199
Contusion, intracerebral, 22
Corticosteroids, in focal brain syndromes, 25, 26
Costochondritis, chest pain in, 849
Cruciate ligament(s), anterior, arthroscopic reconstruction of, **513–524**
extra-articular augmentation of, 516–517
postoperative principles in, 523
procedure for, 518–523
technical considerations for, 513–517
proximal hemorrhage of, 482
arthroscopic reconstruction of, 632, 633
injuries of, radiography in, 876, 877
Cyst(s), popliteal, ruptured, 733, 734

Decompression, surgical, in exertional compartment syndrome, 287
Decompression sickness, clinical manifestations of, 654
pathogenesis of, 655
prevention of, 656
treatment of, 655–656
Disk(s), degenerative disease of, 334–335, 336, 339, 776–777, 779
sports at risk, 331, 332
herniation, acute, management of, 333–334, 335
intervertebral, anatomy of, 325–326
C3–C4, acute herniation of, 160–161
disease of, following spinal injury, 119, 120, 121, 131
herniated, 773–775, 777, 778
chest pain in, 850
radiographic evaluation of, 775–776, 778
low back pain related to, 333–336
rupture of, spasm in, 327
Dislocation(s), glenohumeral, 791–792
Lisfranc's, 910
of cervical spine, 55–57, 757–759
of shoulder, 796–798
of sternoclavicular joint, 789, 790
of wrist, 815–817
Diving, contraindications to, 658
Diving medicine, **647–661**
Drowning, causes of, 657
near-, treatment of, 657
Dystrophy, reflex sympathetic, 732, 733

Education, safety, for athletes, 207–209
Elbow, anatomy of, 259–260, 799
and access points of, 559–560
bursae at, 350–352
chronic synovitis of, 558–559
effusion of, radiographic evaluation of, 799
exercises for, 151–158
extension/triceps curls, 153, 154
flexion/biceps curls, 151–153, 154
flexors of, experimental exercise in, 242, 243
lateral and medial epicondylitis of, **259–272**
Little Leaguer's, radiographic evaluation of, 801–802
osteoarthritic and post-traumatic conditions of, 559
osteochrondritis dissecans of, 558
stress-related injuries of, 802–803
tendinitis of, 374–376
tennis. See *Tennis elbow.*
Elbow arthroscopy, **557–564**
diagnostic, 557
indications for, 557–559
instruments for, 561, 562
problems associated with, 563–564
rehabilitation after, **587–606**
restrictions following, 588–589
return to activity following, 600–602
technique of, 561–563
Elbow pain, in athlete, radiographic evaluation of, **785–809**
Electrical stimulation, brief and intense, 441
high-frequency, conventional, 438–440
in overuse syndromes, 237, 437–459
low-frequency, acupuncture-like, 440–441
transcutaneous, classical, 438–442
Electro-Acuscope, 448–449
Electroencephalography, of boxers, 45
Electrosurgery, in operative arthroscopy, **607–618**
accessories for, 609–610
history of, 607–608
indications for, 611
pitfalls of, 616
principles of, 608–609
techniques for, 610–616
Embolism, pulmonary, chest pain in, 859
EMG-force relationships, of biceps-triceps, 248–249
Emphysema, interstitial, diving and, 652
End-plate defects, 325
Entrapment syndromes, of forearm, 231, 233
Epicondyle, lateral, prominent, iliotibial band friction syndrome in, 281–282
Epicondylitis, lateral. See *Tennis elbow.*
lateral and medial, muscular origins of, 259–261
of elbow, **259–272**
medial, 401–402, 403
Equipment, for arthroscopy, 496
for emergency management of athletic injuries, 6–14

ice hockey, as factor in injuries, 109, 110
research in, 111–112
manufacturers of, liability of, 203
safety of, care of, 209
sports. See specific pieces of equipment.
standards for, establishment of, 193–194
"strict products" liability and, 202–203
tennis racquets, tennis elbow and, 268
Erythema, as reaction to ultraviolet radiation, 670
Examination, physical, in tennis elbow, 262
Exercise(s), aerobic, and overuse injuries, 225
elbow, 151–158
following elbow arthroscopy, 587–588, 590–592, 593, 594, 595, 596, 604
following shoulder arthroscopy, 587–588, 592–600, 602–603
in overuse syndromes, 461–463
in stress fracture, 421
in swimmer's shoulder, 641
in tennis elbow, 264–265, 266, 267
isokinetic, 138
isometric, definition of, 137
strengthening, 137, 142, 143
isotonic, definition of, 137
for rehabilitation, 137, 143–145, 146
manual resistance, 138
progressive-resistive, 371
range-of-motion, 135–136, 141–143
range of motion/stretching, in plantar fasciitis, 294
rehabilitation, in chronically inflamed bursa, 360–369
shoulder, 145–147
stretching, in iliotibila band friction syndrome, 283
variable resistance, 138
wrist, 157, 158
Exercise terms, definitions of, 462
Exertional compartment syndrome(s), acute, development of, 284–286
chronic, development of, 286
diagnosis of, 286–287
pathogenesis of, 284–286
treatment of, 287
types of, 283–284
Exhaustion, overuse damages of, prevention of, 256
symptoms of, 255–256
Exposure, environmental, in whitewater sports, 666–667
Extension, of spine, 328
Extensor carpi radialis longus, anatomy of, 259, 260
Eye(s). See also *Ocular; Optical.*
and adnexa, exposure problems of, 691–692
complications of, in water sports, 685–693
effect of ultraviolet radiation on, 676–677
Eye injuries, in boxing, 44
Eye irritants, water sports-associated, 689–690
Eye toxins, 690–691

Face masks, defogging agents, 690
optical problems and, 686–687
Facet dislocation, C3-C4 bilateral, 172–176, 177
C3-C4 unilateral, 164–172, 178–179
unilateral and bilateral, management of, 181
Facet overload syndrome, 339
Fasciitis, plantar. See *Plantar fasciitis.*
Fatigue, exercise-related, 253–255
muscular, 253–255
Femoral condyle, chondral defect in, 478, 479
softening of, 481
Femoral neck and shaft, stress fractures of, 835–838
Femur, stress fractures of, 723
Fibula, stress fracture of, 722
Field decision-making, 6
Field evaluation, and management, of head and neck injuries, **1–15**
of intracranial injuries, 2–4
Films, safety, for athletes, 208
Fish flesh poisoning, 690–691
Flexibility program, upper body, 360–361
Flexors, elbow, experimental exercise in, 242, 243
Fluoroscopy, in pain, 703
Folliculitis, hot tub, 689
Foot (feet), bursae of, 357–359
stress fractures of, 723–725, 915–916, 917, 918
structural problems of, shin splints in, 278
Foot (feet) injuries, overuse, **291–320**
radiographic evaluation of, in athlete, **905–919**
sports-related, 910–916, 917, 918
Football, craniocerebral and spinal cord fatalities from, 186
head and cervical spine fatalities, 187–192
head and neck injuries associated with, prevention of, 186–187
head injuries induced by, University of Virginia prospective study of. See *University of Virginia, prospective study of football-induced minor head injury.*
litigation in, economic impact of, 204–205
rule changes in, safety and, 193
safety considerations in, 205–206
tackle, fatalities from head and cervical injuries in, **185–196**
tackling and blocking in, education in, 194
Football injury(ies), guillotine mechanism of, 186

Football injury(ies) *(Continued)*
historical background of, 185–186
report on cervical quadriplegia, 61–72
Forefoot injuries, in athletes, 910–913, 914
Fracture(s), acute, of elbow, 559
compression, of spine, 729
of vertebral body, 139
Jones'. See *Jones' fracture.*
occult, bone scanning in, 716–718
of cervical spine, 55–57, 756–757, 760–761
of hand, 825–826
of patella, 881, 882
of pubic ramus, 829–831
of ribs, pain in, 848–849
of talar dome, 907
of wrist, 811–815
osteochondral, 878–879, 880
pathologic, bone tumor leading to, 923
stress. See *Stress fracture(s).*
Freiberg's disease, forefoot pain in, 911, 912

"Gamekeepers thumb," 823
Gases, common, dangerous aspects of, 647–649
Gastrointestinal tract, athletic injuries to, 897–902
Genitalia, external, injuries to, 895–897
Glasgow coma scale, 25
Glenohumeral dislocations, 791–792
Glenoid labrum, tears of, arthroscopy in, 568
radiographic evaluation in, 795–796
Grafting, bone, in Jones' fracture, 303
Groin, pain in, in athlete, roentgen examination in, 829–843
Gut injuries, during athletic activities, 901–902

Haglund's syndrome, 359
clinical findings in, 294–295
management of, 296, 298
radiologic findings in, 295–296, 297
Hamate hook, fracture of, 718, 814–815
Hand, fractures of, 825–826
tendon problems of, 376–378
Hand injuries, 818–826, 827
in athletes, radiography in, 811–828
ligamentous, 823–825
"Handlebar palsy", 231–233
Head, fatality data, football, 187–192
immobilization of, in athletic injuries, 8–9
positions of, in safety education, 209
Head injury(ies), athletic, legal aspects of, 197–210
field evaluation and management of, 1–15
football-associated, and cervical quadriplegia, 61–72
fatal, 185–196
University of Virginia prospective study of. See *University of Virginia, prospective study of football-induced minor head injury.*
from tackling in rugby, 91–92
in athletes, management guidelines for, 17–29
in boxing, mechanisms of, 42
management of, 24–28
Head tilt–jaw lift technique, to open airway, 9, 12
Headache(s), exertional, 741–742
in aneurysms and arteriovenous malformations, 745–746
in athlete, and radiographic evaluation, 739–749
in intracranial injury, 742–745
in neoplasms, 748
migraine, 741
of cervical origin, 741
types of, 741–748
Heart, abnormalities of, chest pain in, 864–867
Heat therapy, in overuse syndromes, 236, 430–431
Helmet(s), football, and cervical spine injuries, 68, 180
and head injuries, 109–110
manufacturers of, liability and, 203
removal of, in emergency care, 9, 11, 13, 14
safety standards for, 193–194
ice hockey, as factor in spinal injuries, 109
motorcycle, studies of, 111–12
safety, 209
Hemangioma, of vertebra, 777, 780
Hematoma(s), acute subdural, 23, 27–28
epidural, 22–23
intracerebral, 22, 24
pulmonary, 857
Hematuria, in athletes, 893–895
Hemorrhage(s), intracranial, in football injuries, 64–65
of interosseous membranes, 730, 731
subconjunctival, in face-mask squeeze, 685, 686
Henry's gas law, 688
Hepatitis, infectious, 900
Hernias, in athletes, 901–902
High-altitude pulmonary edema, 858
High-voltage pulsed galvanic stimulation, 237, 442–447
Hill-Sachs lesion, 792–793

Hindfoot pain, chronic, radiographic evaluation of, 913
Hip, abduction exercise of, 365
bursae around, 352–354
external rotators, tendinitis of, 378–379
flexion exercise of, 365
posterior, exercise, 367–368
stress fractures of, 723
traction apophysitises about, 398
Hip joint, pathology secondary to sports injuries, 838–839
Hip pain, in athlete, roentgenogram examination in, 829–843
History taking, for arthroscopy, 493
Hockey, ice. See *Ice hockey*.
Hot tub folliculitis, 689
Humerus, periostitis and osteitis of, 726, 727
Hydroxyproline excretion, muscle soreness and, 244, 245
Hyperextension, as risk in cervical spine stenosis, 119, 128–129, 130
Hyperstimulation analgesia, 441
Hypertrophic cardiomyopathy, 865–866

Ice hockey, neck injuries in, 101–114
spinal and spinal cord injuries in, description of, 105–107
etiologic factors in, 107–110
incidence of, 101
mechanism of, 108
prevention of, 110–112
psychological factors in, 110
reporting system for, 104–105, 110–111
risk factors in, 110
Ice therapy, in overuse syndromes, 428–429
in plantar fasciitis, 292
in tennis elbow, 264, 267
Ichthyosarcotoxism, 690–691
Iliotibial band, anatomy of, 279–280
exercise for, 368
Iliotibial band friction syndrome, clinical features of, 280–281
predisposing factors in, 281–282
treatment of, 282–283
Immobilization, of head and neck, in athletic injuries, 8–9
Impingement syndrome, 790–791
Incision(s), for arthroscopy, care of, 501
Infection(s), following arthroscopy, 500
ocular, in water sports, 689
pain in, 733
spinal, pain in, 781–782
whitewater sports and, 665–666
Infectious mononucleosis, spleen and, 898–900
Inflammation, 226–228
mediators of, 226
soft-tissue, shin splints in, 277–278
Inherited conditions, athletes at risk in, 329–330, 331
Injury(ies). See also specific areas of injury.
boxing, evaluation of, 41–51
neuropathologic correlations in, 44–45
football, guillotine mechanism of, 186
historical background of, 185–186
report on cervical quadriplegia, 61–72
intracranial, field evaluation and management of, 2–4
resulting from boxing, 31–40
litigation following, economic impact of, 204–205
history of, 198–200
multiple, radiographic sequence in, 711
muscle soreness related to, 246–247
rugby, of spine and spinal cord, 87–99
soft tissue, bone scanning in, 730–732
Insurance, and future of athletics in litigious environment, 206–207
Interferential stimulation, 447–448
Intervertebral disk(s). See *Disk(s), intervertebral*.
Intracranial injury, headaches in, 742–745
Intracranial pressure, control of, in focal brain syndromes, 25–26, 27
Iontophoresis, 371
Ischemia, contraction-related, and pain, 245–246
Isokinetic exercises, 138
Isometric exercises, definition of, 137
strengthening, 137, 142, 143
Isometry, for anterior cruciate ligament reconstruction, 513–514
Isotonic exercises, definition of, 137
for rehabilitation, 137, 143–145, 146

Jaw, arthroscopic instrumentation in, 631
Jaw-thrust technique, to open airway, 9, 12
Jefferson fracture, of cervical spine, 760, 761
Jellyfish stings, 691
Joint(s), biomechanics, muscle injury and, 247–252
Joint disorders, treatment of, 496, 498
Joint effusions, radiographic detection of, 873–874
Joint injury, benign synovial disease mimicking, 925–927
bone tumor presenting as, 924, 926
Jones' fracture, clinical features of, 299, 300, 301
incidence of, 298–299
nonunion of, 299, 306
treatment of, 299–306

Keratotomy, radial, 687
Kidney, athlete's, 892–893
Kidney injuries, conditions predisposing to, 891–892
  in athletes, 888
  in children, 891
  radiographic evaluation in, 889–890, 891
Knee, arthroscopy of, in motion-limiting arthrofibrosis, **537–549**
    instructions to patient following, 501
  breaststroker's, 643–644
  bursae of, 354–357
  disorders of, multifactorial problems in, 494–495
  effusions, radiographic detection of, 873–874
  extensors, myoelectric activity of, 251
  ligaments of, in flexion, 251
  medial collateral ligament sprain, in competitive swimmer, 643–644
  of athlete, pain in, **873–883**
  patellofemoral pain, in competitive swimmer, 643
  stress fractures and, 881–882
  synovial lesions of, electrosurgery in, 613
Kyphosis, Scheuermann's, in competitive swimmers, 645

Lasers, cold, types of, 459
  physiologic principles relating to, 459–460
  precautions in use of, 461
  technique of use of, 460–461
Leg(s), anterolateral compartment syndrome of, 233, 234
  length discrepancy of, iliotibial band friction syndrome in, 282
  lower, stress fractures of, 721–722
Leg holders, for arthroscopy, 474
Legal aspects, of athletic injuries to head and cervical spine, **197–210**
Legg-Calvé-Perthes disease, 838
Liability, joint and several, 203–204
  "strict products", 202–203
  waiver of, for athletic participation, 208
Ligament(s), cruciate. See *Cruciate ligament.*
  of knee, in flexion, 251
  spinal, anatomy of, 326
Limb, trauma to, radiography in, 710–711
Lisfranc's dislocation, 910
Litigation, in athletics, economic impact of, 204–206
    history of, 198–200
Little Leaguer's elbow, radiographic evaluation of, 801–802
Liver injuries, diagnosis of, 900
Locus stimulators, 449–451
Lordosis, cervical, conditions indicated by, 754
  lumbar, 330, 331
Low back pain, acquired conditions at risk for, 331
  as common complaint, 839
  as overuse syndrome, **321–344**
  clinical considerations in, 768
  congenital anomaly associated with, 321, 322
  discogenic, 333–336
  inherited conditions at risk for, 329–330, 331
  patient assessment in, 321–322
  principles of musculoskeletal medicine and, 322–323
  specific etiologies for, 771–782
  spondylogenic, 336–342
  sports at risk for, 331, 332
  types of, 332–342
Low Dye strapping technique, in plantar fasciitis, 292–293
Lower extremity, malalignment of, shin splints in, 278
Low-voltage stimulators, 451–456
Lung injury, in near-drowning, 657
Lupus erythematosus, systemic, photosensitivity in, 675

Magnetic resonance imaging, for arthroscopy, 492
  in ankle problems, 907
  in cervical spine injuries, 751
  in diagnosis of pain, 700, 708–710
  in headache, 740, 744, 745–746, 748
  in shoulder abnormalities, 799
  in thoracolumbar pain, 769, 770
Malleolar stress fractures, radiographic diagnosis of, 910, 911
Marine toxins, 690
Medial collateral ligament injuries, radiographic evaluation of, 874–875
Medial epicondyle, entrapment of, 802
Mediastinum, free air in, chest pain in, 859–863
Melanoma, malignant, ultraviolet radiation and, 672
Membrane(s), interosseous, hemorrhage of, 730, 731
Meniscorhesis, 526
Meniscus, arthroscopic repair(s) of, approaches for, 529–530
    instrumentation and techniques for, 530–532, 533, 534, 631
    postoperative care in, 533
    rationale for, 525–526
    results of, 533–534

stability and, 528
sutures for, 530
blood supply of, 527–528
injuries to, radiography in, 876–878
lesions of, electrosurgery in, 613–614
medial, posterior abnormality of, 479–480
subluxation of, over medial tibila plateau, 644
repair of, indications for, 526–528
open, results of, 528–529
Metacarpal fractures, 825–826
Metatarsals, injuries to, diagnosis of, 910–911
Microwave heating, for overuse injuries, 236
Migraine, radiographic evaluation of, 741
Mitral valve prolapse, 866
Morton's neuroma, 231, 232
Motion, exercises to increase, 135–136, 141–143
Muscle(s). See also specific muscles.
activation of, and recruitment, 253
fatigue related to, 253–255
imbalance, as risk factor, 331
of lumbar spine, 326–327
overuse of, exhaustion in, 256
soreness of, acute, 244–246
delayed, 242–244
in overuse, 241–247
injury-related, 246–247
strain, bone tumor mimicking, 923–924, 925
Muscle injury(ies), joint biomechanics and, 247–252
temperature-related, 252
Muscular strength, definition of, 136
increasing, 136, 137
Musculoskeletal medicine, principles of, low back pain and, 322–323
Myelography, in thoracolumbar pain, 769–771
Myocardial contusion, 867
Myoelectric activity, of knee extensors, 251
Myopulse, 448–449
Myositis ossificans, 730, 731

National Football Head and Neck Injury Registry: 14-year report on cervical quadriplegia, **61–72**
Nautilus exercises, for brachial plexus injuries, 147–151
Nautilus machine(s), behind neck, 150, 151
biceps/triceps, 153, 155, 156
decline press, 147–150
double chest/arm-cross, 147, 149
double shoulder, lateral raise, 150–151, 152
overhead press, 151, 153
rowing, 150, 152
super pull-over, 147, 148
Nautilus strength training, 143–145
Neck, contraction, exercises for, 144, 145
extension, exercises for, 141, 142, 143, 144, 145
flexion, exercises for, 141, 142, 143
immobilization of, in athletic injuries, 8–9
Neck injury(ies), field evaluation and management of, **1–15**
football-associated, and cervical quadriplegia, 61–72
from tackling in rugby, 92–93
in boxing, mechanisms of, 42
in ice hockey, **101–114**
Necrosis, avascular, pain in, 733
Negligence, comparative, "modified", 201
"pure", 201
contributory, definition of, 199
Neoplasms, headaches in, 748
of spine, pain in, 777–780, 781
Nerve(s). See also specific nerves.
of spine, 327
overuse injury of, 230–234
peripheral. See *Peripheral nerve.*
Nerve root–brachial plexus neurapraxia, 54
Neurapraxia, brachial plexus, Grade I, 140
cervical spinal cord, with transient quadriplegia, 57
cord, and transient quadriplegia, cervical spine stenosis with, **115–133**
nerve root–brachial plexus, 54
Neurologic evaluation, of boxers, 45
Neurologic injury, following arthroscopy, 500
Neuroma(s), interdigital plantar, 231, 232
Morton's, 231, 232
Neuromuscular junction fatigue, 253–254
Neuromuscular stimulators, 456–458
Nitrgoen, for diving medicine, 647–648
Nuclear medicine bone scans, in evaluating pain, **713–737**

Ober's test, of iliotibial tightness, 280–281
Obesity, as risk factor, 331
Ocular trauma, in aquatic sports, 688–689
Oculomotor system toxins, 690–691
Odontoid, fractures of, classification of, 760–761
Optical problems, and refractive errors, 685–688
Orthotics, fabrication of, 316–319
in overuse injuries, 315–320
in shin splints, 279
indications for, 315
Osgood-Schlatter disease, assessment in, 392–393

Osgood-Schlatter disease *(Continued)*
etiology of, 391–392
management of, 393–395
Osseous tunnels, for anterior cruciate ligament reconstruction, 514–516
Osteitis, 725–726
Osteoarthritis, degenerative, 839
of elbow, 559
Osteoblastoma, pain in, 780
Osteochondral fractures, 878–879, 880
Osteochondritis dissecans, 733, 803–807, 878–879, 880
of elbow, 558
Osteoid osteoma, pain in, 732–733, 778–780
Overinflation syndromes, pulmonary, diving and, 652
Overuse injury(ies), apophyseal, 391
factors leading to, 235
introduction to, **225–239**
low back pain as, in athletes, **321–344**
muscle, biomechanics of, theoretical approach to, **241–257**
of the foot, **291–320**
orthotic devices in, 315–320
treatment of, 235–237
Overuse syndromes, 789, 790
application of modalities in, **427–466**
whitewater sports and, 665
Oxygen, for sport diving, 648

Pain, abdominal. See *Abdominal pain.*
bone, persistent, normal radiographs in, 716–728
chest, radiologic evaluation of, **845–871**
diagnosis of, pitfalls to avoid in, **921–934**
evaluation of, nuclear medicine bone scans in, **713–737**
groin and hip, roentgen examination in, **829–843**
in peptic ulcer disease, 901
in plantar fasciitis, 291–292
in swimmer's shoulder, 640–641
knee, **873–883**
in competitive swimmer, 642–644
low back. See *Low back pain.*
lumbar and thoracic spine, radiographic evaluation of, **767–783**
radiologic diagnosis of, **699–711**
shoulder and elbow, radiographic evaluation of, **785–809**
Pancreatic injuries, pain in, 900
radiographic evaluation in, 900–901
Parenchyma, abnormalities of, chest pain in, 856–859
Patella, bilateral complaints in, 484
fracture of, 881, 882
realignment of, 483–488
assessment of, 484–485
indications for, 484
stabilizing plication of, 487–488
technique of, 485–488
tendinitis of, 379–381
Patient(s), approach to, in overuse injury, 235–236
Pellegrini-Stieda lesion, 875
Pelvis, osteitis of, 728
pain in, in female athlete, 902–903
stress fractures of, 723, 724
tendinous attachment sites of, injuries of, 832–835
Periostitis, 725–726, 727
Peripheral nerve injury(ies), 140–141
rehabilitation of, **135–158**
Peroneal tendon subluxation, ankle pain in, 909
Phalangeal fractures, 825
Phonophoresis, 371
Photoallergy, 674
Photophthalmia, 676
Photoprotection, 677–679
Photoretinitis, 677
Photosensitivity reactions, 673–675
agents inducing, 674–675
Phototoxicity, 674
Physical examination, in tennis elbow, 262
Physical therapy, after arthroscopy, 497–499
of shoulder and elbow, 589–590
Plantar fasciitis, 730–732
symptoms of, 291–292
treatment of, 292–294
Pleural space, fluid in, chest pain in, 852–855, 856
Pneumomediastinum, 859–863
Pneumothorax, diving and, 652
in chest trauma, 850–851, 852
Point stimulators, 449–451
Polymorphous light eruption, 675
Popliteal cyst, ruptured, 733, 734
Position(ing), for arthroscopy, 474
Pregnancy, diving and, 658
Pressure relationships, in ophthalmic pathology, 688
Pronation, abnormal, orthotics in, 315–316
forefoot, iliotibial band friction syndrome in, 282
Proprioceptive neuromuscular facilitation, 136
Prostaglandins, and inflammation, 227–228
P-substance, muscle soreness and, 242
Pterygia, 691–692
Pubic ramus, fractures of, 829–831
Pubic symphysis, injuries of, 831–832
Pulmonary edema, radiographic abnormalities in, 858
Pump-bump, in Haglund's syndrome, 295, 296, 297

Quadriceps mechanism, injuries to, 879–881
Quadriceps tendon avulsion, 396, 397
Quadriplegia, cervical spine, axial loading in football and, 180–181
14-year report on, **61–72**
trampoline-induced, **73–85**
transient, and cord neurapraxia, cervical spine stenosis with, **115–133**
in cervical spinal cord neurapraxia, 57

Radial nerve, entrapment of, 231, 233
Radiograph(s), abnormality, focal lucent or dense, 729–730
plain, for arthroscopy, 492
normal, persistent bone pain in, 716–728
in diagnosis of pain, 700–702
in headache, 739–740
positive, acute versus chronic, 729–730
stress views, 702–703
Radiology, high-resolution and magnification, in pain, 703–704, 705
in abdominal pain, 885–886
in ankle injuries in athlete, **905–919**
in diagnosis of pain in athlete, **699–711**
in evaluation of chest pain in athlete, **845–871**
in evaluation of headache in athlete, **739–749**
in foot injuries in athlete, **905–919**
in Haglund's syndrome, 295–296, 297
in pain in lumbar and thoracic spine of athlete, **767–783**
in renal injuries, 889–890, 891
in tarsal navicular stress fractures, 307–312
in tennis elbow, 262–263
of wrist and hand injuries in athletes, **811–828**
sequence for, in trauma, 710–711
technique, in cervical spine injuries, 752–755
Recruitment, muscle activation and, 253
Reflex sympathetic dystrophy, 732, 733
following arthroscopy, 500
Rehabilitation, after shoulder and elbow arthroscopy, **587–606**
of cervical spine, brachial plexus, and peripheral nerve injuries, **135–158**
Rehabilitation exercises. See *Exercise(s), rehabilitation.*
Rehabilitation, principles of, review of, 135–138
Rehabilitation program, 141–158
Resistance exercises, manual and variable, 138
Rest, relative, in overuse syndromes, 427
Retrocalcaneal bursitis, 730–732
Rib, fractures, pain in, 848–849
Risk(s), assumption of, in athletics, 199–200, 202
in athletic competition, 207–208
Roentgen examination. See also *Radiology.*
of cervical spine injuries in athlete, **751–766**
of groin and hip pain in athlete, **829–843**
Rotation, lateral, in isometric strengthening, 143
lumbar spine and, 328
Rotator cuff tears, 798
arthroscopy in, 568–569
Rugby, collapsing scrum in, orthopedic injuries in, 88–99, 90
crashing scrum in, flexion injuries in, 89–90
double tackle in, injuries during, 94, 95
mauls, definition of, 96
prevention of injuries in scrums, 90–91
rucks, and mauls in, injuries in, 97–99
definition of, 96
Rugby injuries, from tackling, 91–96
of spine and spinal cord, **87–99**
prevention of, 94–96

Sacroiliac disease, 341–342
Sacroiliac joint, pain associated with, 839–842
Safety, athletic injury cases and, 205
films, for athletes, 208
for boxers, 50
Sarcoma, osteogenic, simulating athletic injury, 930, 931
Scheuermann's disease, 340–341, 839
Scheuermann's kyphosis, in competitive swimmers, 645
Scoliosis, 324, 329–330, 338–339
in competitive swimmers, 645
Screw fixation, intramedullary, closed axial, in Jones' fracture, 305–306
SCUBA diving, gases and, 548
Sesamoiditis, forefoot pain in, 911, 912
Sever's disease, 399, 400
Shin splints, bone scanning in, 725–726
definition of, 273, 274
diagnosis of, 278
etiologies of, 275–278, 725
presentation of, 274
symptoms of, 274
treatment of, 278–279
Shortwave diathermy, in overuse injuries, 236
Shoulder, anatomy of, 785
anterior, arthroscopic stabilization of, **581–586**
Bankart-like procedure in, 583–584
indications for, 582

Shoulder *(Continued)*
staple fixation in, 584–585
staple placement in, 585
transitional operative technique of, 582–583
instability of, etiology of, 581–582
Shoulder arthroscopy, 488, 628–630
diagnostic, 567
in throwing athlete, **565–571**
physical examination for, 565–566
operative, 567–569
rehabilitation after, **587–606**
restrictions following, 588–589
return to activity following, 600–602
bursae in, 347–350
dislocation of, posterior, 796–798
voluntary, 798
exercises for, 145–147
extra-articular pathology of, arthroscopic examination of, 569–570
home rehabilitation program, 361–362
impingement syndrome of, electrosurgery in, 614–616
injury(ies) of, conservative treatment of, 566–567
diagnostic procedures in, 566
history and physical examination in, 565–566
radiographic evaluation of, 785–799
instability of, in competitive swimmer, 642–643
pain in, radiographic evaluation of, **785–809**
reconstructive procedures for, 488
subluxation of, arthroscopy in, 567
radiographic evaluation of, 793–795
swimmer's, 639–642
tendinitis of, arthroscopy in, 567–568
Sinding-Larsen-Johansson syndrome, 395–396, 397
Sinus barotrauma, 651
Skeleton, axial, anatomy of, 323–328
radiologic evaluation of, 847–850
Skin, premature aging of, sun and, 692
Skin types, sun-reactive, 671
"Slipping rib syndrome", 849
Snowblindness, 676
Soft tissue(s), chest pain arising from, 845–846
inflammatory reaction of, shin splints in, 277–278
Soft-tissue injuries, bone scanning in, 730–732
Sonography, in genital athletic injury, 895, 896–897
Spinal accessory nerve, injuries to, 141
Spinal canal, sagittal, diameter of, analysis of, 123, 124, 126–127
–vertebral body ratio, analysis of, 123, 125, 127–128
Spinal cord, cervical, neurapraxia, with transient quadriplegia, 57
injury to, accidental, in children, 187
in rugby, **87–99**
Spine, anatomy and physiology of, 767–768
Spine. See also *Cervical spine.*
compression fractures of, 729
fracture(s) of, in ice hockey, case report of, 102–103
infections of, pain in, 781–782
injury to at level of third and fourth cervical vertebrae, **159–183**
from rugby tackle, 92
in ice hockey. See *Ice hockey, spinal and spinal cord injuries in.*
in rugby, **87–99**
radiographic sequence in, 711
radiographs in, 701–702
lumbar, and thoracic, pain in, radiographic evaluation of, **767–783**
asymmetry of, as risk factor, 330
congenital anomalies of, 771, 772
pain associated with, 839–842
movements of, 327–328
neoplasms of, pain in, 777–780
stenosis of, developmental, 117, 118
ratio method of measurement of, 116, 117, 129
Spineboard, 6–7
logroll to, 9, 10
Spleen, infectious mononucleosis and, 898–900
Spleen injury, radiographic evaluation in, 898
Spondylolisthesis, 773, 776, 841
Spondylolysis, 330, 337–338, 839–841
bone scanning in, 729
in competitive swimmers, 645
Spondylosis, 772, 775
Sports, at risk for low back pain, 331, 332
"Sprain syndrome", acute cervical, 54–55, 138–139
lumbar, 334–335, 336
Stenosis, cervical spine, hyperextension as risk in, 119, 128–129, 130
with cord neurapraxia and transient quadriplegia, **115–133**
Sternoclavicular dislocation, 789, 790
Steroids, in tennis elbow, 266
Strapping, low Dye technique, in plantar fasciitis, 292–293
Strength, muscular, definition of, 136
increasing, 136, 137
Stress fracture(s), **405–425**
anatomic considerations in, 406–410, 412–413

anthropometric considerations in, 413–414
as overuse injury, 230
biologic considerations in, 414, 415
biomechanical basis of, 230
bone scanning in, 718
dating of, by bone scan, 720, 721
development of, 405
diagnosis of, 416–419
history of, 405
host considerations in, 414–416
in sports, 413
incidence of, 419–420
knee pain in, 881–882
malleolar, radiographic diagnosis of, 910, 911
mechanical considerations in, 410–411, 412
natural course of, 423
of femoral neck and shaft, 835–838
of foot, 723–725, 915–916, 917, 918
of hip and femur, 723
of lower leg, 721–722
of metatarsal shaft, 301–302
of pubic ramus, 829–831
of tibia, shin splints in, 275–276
of upper extremity, 725
prevention of, 423-424
return to sport following, 422–423
sequential pattern of, 720
tarsal navicular, conditions associated with, 307
diagnosis of, 306–307
radiographic findings in, 307–312
symptoms of, 307
treatment guidelines in, 314–315
types of, 312–314
treatment of, 420–422
ultrasound in, 436–437
Stress remodeling, 718–719
Stress syndrome, medial tibial. See *Shin splints*.
Stress views, in ligamentous instability, 702–703
Stretch, hurdler's, 378, 379
pectoral and rhomboid, 362–363
Subacromial impingement, arthroscopic decompression of, 575
arthroscopic treatment of, **573–579**
clinical diagnosis of, 574–575
pathophysiology of, 573–574
postoperative care in, 578
stages of, 574
Sun, and water sports, **669–684**
Sunburn, treatment of, 679–682
Sunscreens, 680–681
chemical, 678–679
sun protection factor of, 677–678
systemic agents as, 679
topical, categories of, 678
Suprascapular nerve, injuries to, 141
stretching of, 233, 234
Swimmer's shoulder, 639–642
Swimming, competitive, orthopedic aspects of, **639–645**
Synovial disease, benign, mimicking joint injury, 925–927
Synovitis, chronic, of elbow, 558–559

Talar dome, fracture of, 907
Talus, fracture of, 719
Tarsal tunnel syndrome, 231
Teams, safety measures for, 207–209
Teardrop fracture, of cervical spine, 757
Temperature, muscle injuries related to, 252
Tendinitis, Achilles, 383–387
bicipital, 373–374
in overuse injuries, 228
of elbow, 374–376
of hip external rotators, 378–379
patellar, 379–381
popliteal, 381–382, 383
semimembranosus, 382–383
treatment of, 371, 372
Tendon(s). See also specific tendons.
chronically inflamed, **371–388**
extensor, central slip of, disruption of, 821
flexor profundus, avulsion of, 822, 823
overuse injuries and, 228–229
problems, of wrist and hand, 376–378
terminal extensor, avulsion of, 819–821
Tennis, backhand stroke, tennis elbow and, 267–268
Tennis elbow, anatomy and, 259–260
diagnosis of, 260–262, 263
etiology of, 263–264
medial, 260
natural course of, 271
physical examination in, 262
prevention of, 271
radiographic examination in, 262–263, 799–800, 801
surgical considerations in, 268–270
treatment of, 264–268
Tennis racquets, tennis elbow and, 268
Tenosynovitis, de Quervain's, 377
TENS, in overuse injuries, 237
Testicular torsion, in athlete, 895, 896
Thigh, anterior, exercise for, 368–369
lateral, exercise for, 367–368
Thromboembolic disease, pulmonary, 859
Thrombophlebitis, following arthroscopy, 500
Throwing, shoulder arthroscopy following, **565–571**
Throwing program, interval, following shoulder and elbow arthroscopy, 605–606

Tibia, internal rotation of, iliotibial band friction syndrome in, 282
periostitis and osteitis of, 725–726, 727
plateau of, fracture of, 719
stress fractures of, 722
shin splints in, 275–276
Tibial nerve, posterior, trapped, 231
Tibialis posterior tendon, attenuation or rupture of, 910
Tomography, in diagnosis of pain, 699
plain-film, in pain, 703, 704
Trampoline, injuries associated with, 74–75, 205
precautions in use of, 83
quadriplegia induced by, **73–85**
Transcutaneous electrical nerve stimulation, in overuse injuries, 237
Transportation, in athletic injuries, to cervical spine, 53–54
to head and neck, 8–9, 13
Tumor(s), bone. See *Bone tumor(s)*.

Ultrasound, contraindications to, 437
diagnostic, in pain, 705–706
in overuse syndromes, 236, 431–437
in stress fracture assessment, 436–437
Ultraviolet radiation, acute effects of, 669–671
affecting eyes, 676–677
classification of, 669
long-term effects of, 671–673
University of Virginia, prospective study of football-induced minor head injury, **211–218**
design of, 213–216
institutions participating in, 212
neuropsychologic assessment protocol in, 214
psychosocial assessment protocol in, 214
significance of, 212–213
Urethral injuries, in athletes, 893–894
Urinary tract disorders, nontraumatic, 887
Urinary tract injury, athletic, 886–887
incidence of, 888

Vascular disorders, in athletes, 903
Vertebra(e), cervical, subluxation of, without fracture, 55
C3, anterior subluxation on C4, 161–164
C3-C4, bilateral facet dislocation, 172
unilateral facet dislocation, 164–172
C4, body fractures, 176–177
role in low back pain, 324–325
Vertebral body, compression fractures of, 139
Volar plate rupture, 824–825

Water sports, ophthalmic complications of, 685–693
sun and, **669–684**
Wedge fracture, of cervical spine, 756–757
Whitewater sports, environmental exposure problems in, 666–667
infectious diseases associated with, 665–666
medical problems in, **663–668**
overuse syndromes associated with, 665
submersion accidents in, 663–664
trauma associated with, 664–665
Wrist, dislocations of, 815–817
extension of, 157, 158
flexion of, 157, 158
fractures of, 811–815
instability of, traumatic, 817–818, 819, 820
navicular rotary subluxation of, 815–816
perilunate and lunate dislocations of, 816–817, 818
tendon problems of, 376–378
Wrist arthroscopy, **551–556**, 630–631
indications for, 555–556
operative maneuvers in, 554–555
technique of, 551–554
Wrist exercises, 157, 158
Wrist injury(ies), radiography in, **811–828**

X-rays. See also *Radiograph(s)*.
for arthroscopy, 492
